

# MySQL Module

1. User Upcoming Events Show a list of all upcoming events a user is registered for in their city, sorted by date.

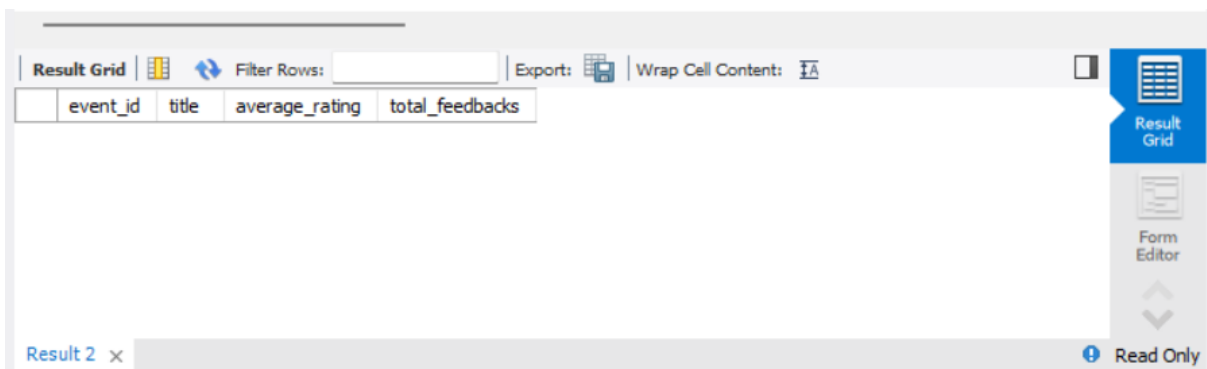

The screenshot shows a database application interface with a table titled 'Result 1'. The table has columns: full\_name, title, city, and start\_date. The data is as follows:

| full_name     | title                         | city        | start_date          |
|---------------|-------------------------------|-------------|---------------------|
| Alice Johnson | Tech Innovators Meetup        | New York    | 2025-06-10 10:00:00 |
| Alice Johnson | Tech Innovators Meetup        | New York    | 2025-06-10 10:00:00 |
| Ethan Hunt    | Frontend Development Bootcamp | Los Angeles | 2025-07-01 10:00:00 |

The interface includes a 'Filter Rows' field, an 'Export' button, and a 'Wrap Cell Content' button. A 'Result Grid' button is visible on the right side of the table.

2. Top Rated Events Identify events with the highest average rating, considering only those that have received at least 10 feedback submissions.

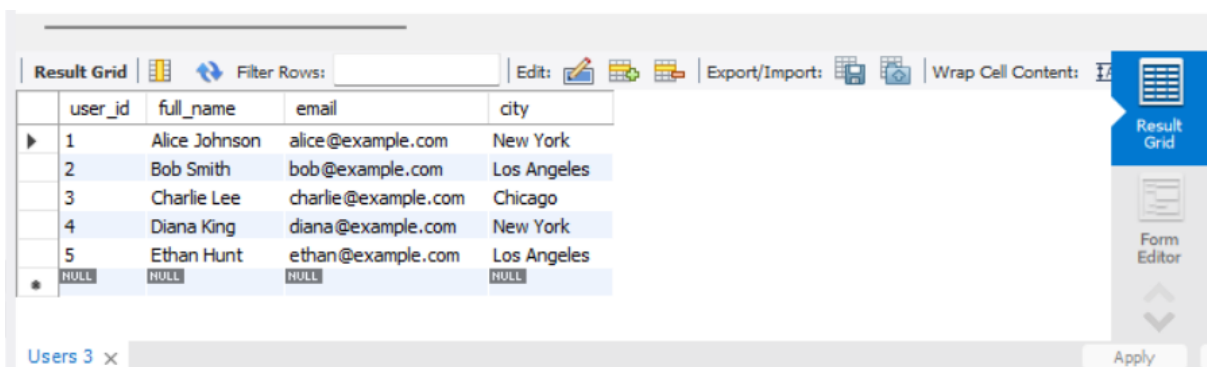

The screenshot shows a database application interface with a table titled 'Result 2'. The table has columns: event\_id, title, average\_rating, and total\_feedbacks. The table is currently empty.

| event_id | title | average_rating | total_feedbacks |
|----------|-------|----------------|-----------------|
|----------|-------|----------------|-----------------|

The interface includes a 'Filter Rows' field, an 'Export' button, and a 'Wrap Cell Content' button. A 'Result Grid' button is visible on the right side of the table.

3. Inactive Users Retrieve users who have not registered for any events in the last 90 days.

The screenshot shows a database application interface with a table titled 'Users 3'. The table has columns: user\_id, full\_name, email, and city. The data is as follows:

| user_id | full_name     | email               | city        |
|---------|---------------|---------------------|-------------|
| 1       | Alice Johnson | alice@example.com   | New York    |
| 2       | Bob Smith     | bob@example.com     | Los Angeles |
| 3       | Charlie Lee   | charlie@example.com | Chicago     |
| 4       | Diana King    | diana@example.com   | New York    |
| 5       | Ethan Hunt    | ethan@example.com   | Los Angeles |
| NULL    | NULL          | NULL                | NULL        |

The interface includes a 'Filter Rows' field, an 'Edit' button, an 'Export/Import' button, and a 'Wrap Cell Content' button. A 'Result Grid' button is visible on the right side of the table.

4. Peak Session Hours Count how many sessions are scheduled between 10 AM to 12 PM for each event.

| Result Grid                       |                               |               |  |
|-----------------------------------|-------------------------------|---------------|--|
| Filter Rows: <input type="text"/> |                               |               |  |
| Export:                           |                               |               |  |
| Wrap Cell Content:                |                               |               |  |
| event_id                          | title                         | session_count |  |
| 1                                 | Tech Innovators Meetup        | 2             |  |
| 2                                 | AI & ML Conference            | 0             |  |
| 3                                 | Frontend Development Bootcamp | 1             |  |
| 4                                 | Cloud Computing Workshop      | 0             |  |
| 5                                 | Cloud Computing Workshop      | 0             |  |

Result 1 x Read Only

5. Most Active Cities List the top 5 cities with the highest number of distinct user registrations.

| Result Grid                       |                     |  |
|-----------------------------------|---------------------|--|
| Filter Rows: <input type="text"/> |                     |  |
| Export:                           |                     |  |
| Wrap Cell Content:                |                     |  |
| city                              | total_registrations |  |
| Los Angeles                       | 2                   |  |
| New York                          | 2                   |  |
| Chicago                           | 1                   |  |

Result 5 x Read Only

6. Event Resource Summary Generate a report showing the number of resources (PDFs, images, links) uploaded for each event.

| Result Grid                       |                               |           |             |            |                 |  |
|-----------------------------------|-------------------------------|-----------|-------------|------------|-----------------|--|
| Filter Rows: <input type="text"/> |                               |           |             |            |                 |  |
| Export:                           |                               |           |             |            |                 |  |
| Wrap Cell Content:                |                               |           |             |            |                 |  |
| event_id                          | title                         | pdf_count | image_count | link_count | total_resources |  |
| 1                                 | Tech Innovators Meetup        | 1         | 0           | 0          | 1               |  |
| 2                                 | AI & ML Conference            | 0         | 1           | 0          | 1               |  |
| 3                                 | Frontend Development Bootcamp | 0         | 0           | 1          | 1               |  |

Result 1 x Read Only

7. Low Feedback Alerts List all users who gave feedback with a rating less than 3, along with their comments and associated event names.

|             |              |            |                    |             |
|-------------|--------------|------------|--------------------|-------------|
| Result Grid | Filter Rows: | Export:    | Wrap Cell Content: | Result Grid |
| user_id     | full_name    | event_name | rating             | comments    |

Result 1 x Read Only

8. Sessions per Upcoming Event Display all upcoming events with the count of sessions scheduled for them.

|             |                               |               |                    |             |
|-------------|-------------------------------|---------------|--------------------|-------------|
| Result Grid | Filter Rows:                  | Export:       | Wrap Cell Content: | Result Grid |
| event_id    | title                         | session_count |                    |             |
| 1           | Tech Innovators Meetup        | 2             |                    |             |
| 3           | Frontend Development Bootcamp | 1             |                    |             |

Result 2 x Read Only

9. Organizer Event Summary For each event organizer, show the number of events created and their current status (upcoming, completed, cancelled).

|             |                |           |                    |             |
|-------------|----------------|-----------|--------------------|-------------|
| Result Grid | Filter Rows:   | Export:   | Wrap Cell Content: | Result Grid |
| user_id     | organizer_name | status    | total_events       |             |
| 1           | Alice Johnson  | upcoming  | 1                  |             |
| 2           | Bob Smith      | upcoming  | 1                  |             |
| 3           | Charlie Lee    | completed | 1                  |             |

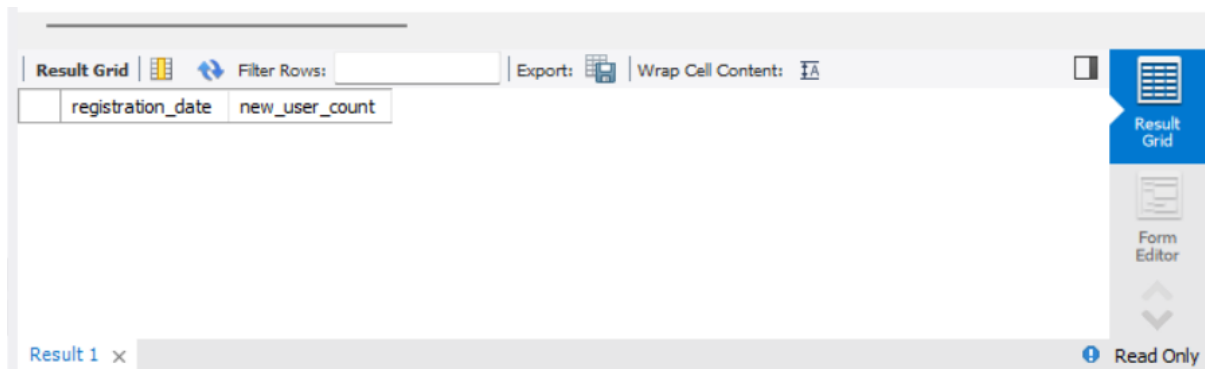

Result 1 x Read Only

10. Feedback Gap Identify events that had registrations but received no feedback at all.

|             |                               |         |                    |             |
|-------------|-------------------------------|---------|--------------------|-------------|
| Result Grid | Filter Rows:                  | Export: | Wrap Cell Content: | Result Grid |
| event_id    | title                         |         |                    |             |
| 3           | Frontend Development Bootcamp |         |                    |             |

Result 1 x Read Only

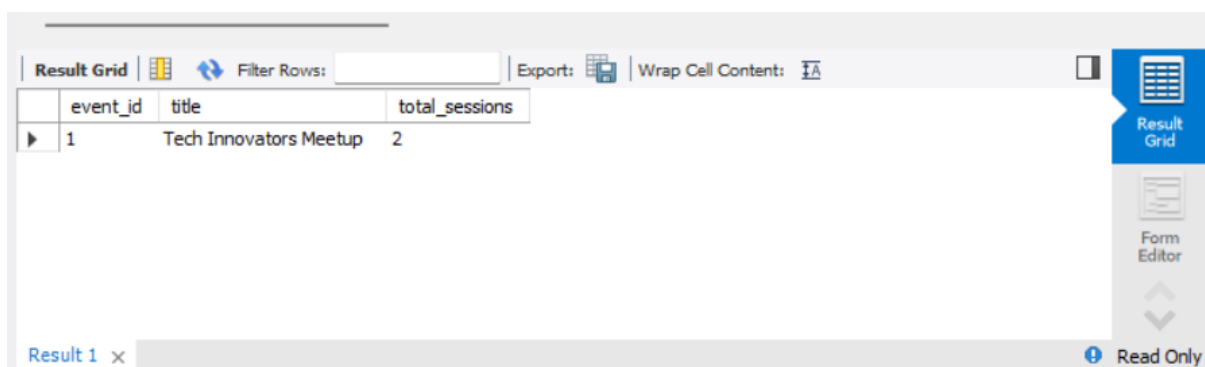

11. Daily New User Count Find the number of users who registered each day in the last 7 days.

The screenshot shows a data tool interface with a toolbar at the top containing 'Result Grid', 'Filter Rows', 'Export', and 'Wrap Cell Content'. Below the toolbar is a table with two columns: 'registration\_date' and 'new\_user\_count'. The table is currently empty. On the right side, there is a vertical toolbar with 'Result Grid' and 'Form Editor' buttons. At the bottom, it says 'Result 1 x' and 'Read Only'.

| registration_date | new_user_count |
|-------------------|----------------|
|-------------------|----------------|

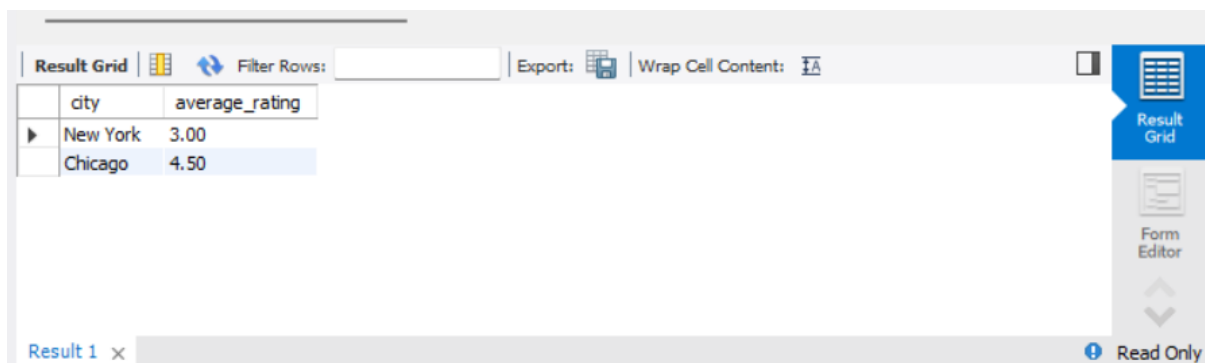

12. Event with Maximum Sessions List the event(s) with the highest number of sessions.

The screenshot shows a data tool interface with a toolbar at the top containing 'Result Grid', 'Filter Rows', 'Export', and 'Wrap Cell Content'. Below the toolbar is a table with three columns: 'event\_id', 'title', and 'total\_sessions'. The table contains one row with the following data: event\_id: 1, title: Tech Innovators Meetup, total\_sessions: 2. On the right side, there is a vertical toolbar with 'Result Grid' and 'Form Editor' buttons. At the bottom, it says 'Result 1 x' and 'Read Only'.

| event_id | title                  | total_sessions |
|----------|------------------------|----------------|
| 1        | Tech Innovators Meetup | 2              |

13. Average Rating per City Calculate the average feedback rating of events conducted in each city.

The screenshot shows a data tool interface with a toolbar at the top containing 'Result Grid', 'Filter Rows', 'Export', and 'Wrap Cell Content'. Below the toolbar is a table with two columns: 'city' and 'average\_rating'. The table contains two rows with the following data: city: New York, average\_rating: 3.00; city: Chicago, average\_rating: 4.50. On the right side, there is a vertical toolbar with 'Result Grid' and 'Form Editor' buttons. At the bottom, it says 'Result 1 x' and 'Read Only'.

| city     | average_rating |
|----------|----------------|
| New York | 3.00           |
| Chicago  | 4.50           |

14. Most Registered Events List top 3 events based on the total number of user registrations.

| Result Grid                       |                               |                     |  |
|-----------------------------------|-------------------------------|---------------------|--|
| Filter Rows: <input type="text"/> |                               |                     |  |
| Export:                           |                               |                     |  |
| Wrap Cell Content:                |                               |                     |  |
| Fetch rows:                       |                               |                     |  |
| event_id                          | title                         | total_registrations |  |
| 1                                 | Tech Innovators Meetup        | 2                   |  |
| 2                                 | AI & ML Conference            | 2                   |  |
| 3                                 | Frontend Development Bootcamp | 1                   |  |

Result 1 x Read Only

15. Event Session Time Conflict Identify overlapping sessions within the same event (i.e., session start and end times that conflict).

| Result Grid                       |            |             |                |             |                |
|-----------------------------------|------------|-------------|----------------|-------------|----------------|
| Filter Rows: <input type="text"/> |            |             |                |             |                |
| Export:                           |            |             |                |             |                |
| Wrap Cell Content:                |            |             |                |             |                |
| event_id                          | event_name | session1_id | session1_title | session2_id | session2_title |

Result 1 x Read Only

16. Unregistered Active Users Find users who created an account in the last 30 days but haven't registered for any events.

| Result Grid                       |           |       |                   |
|-----------------------------------|-----------|-------|-------------------|
| Filter Rows: <input type="text"/> |           |       |                   |
| Export:                           |           |       |                   |
| Wrap Cell Content:                |           |       |                   |
| user_id                           | full_name | email | registration_date |

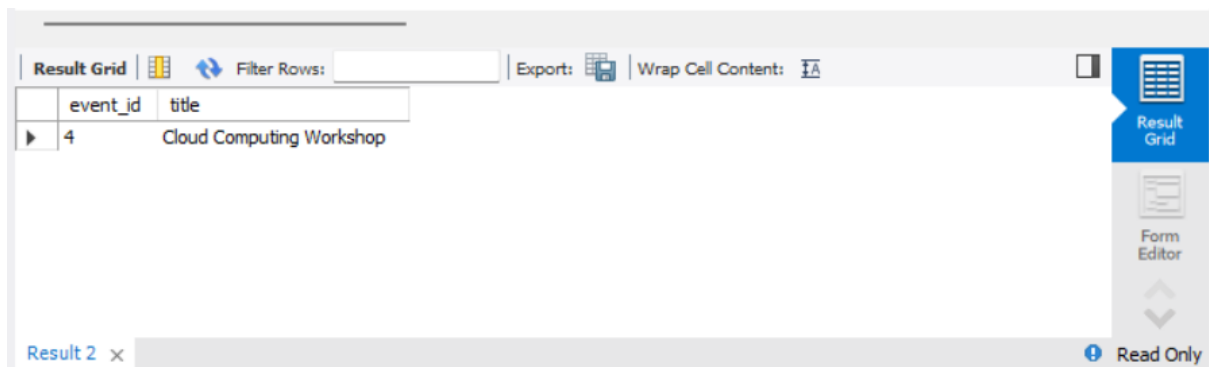

Result 1 x Read Only

17. Multi-Session Speakers Identify speakers who are handling more than one session across all events.

| Result Grid                       |                |
|-----------------------------------|----------------|
| Filter Rows: <input type="text"/> |                |
| Export:                           |                |
| Wrap Cell Content:                |                |
| speaker_name                      | total_sessions |

Result 1 x Read Only

18. Resource Availability Check List all events that do not have any resources uploaded.

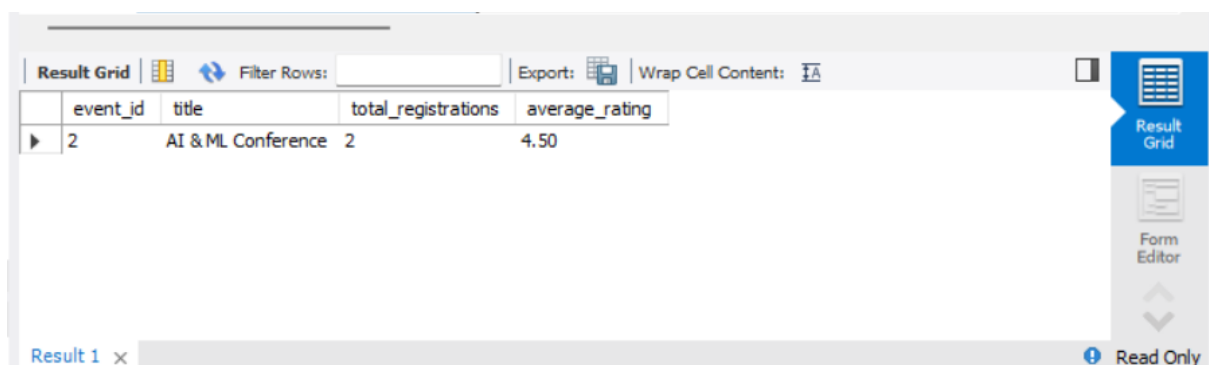

The screenshot shows a data grid interface with a toolbar at the top containing 'Result Grid', 'Filter Rows', 'Export', and 'Wrap Cell Content'. The grid displays one row with the following data:

| event_id | title                    |
|----------|--------------------------|
| 4        | Cloud Computing Workshop |

On the right side, there are buttons for 'Result Grid' and 'Form Editor'. At the bottom, it says 'Result 2' and 'Read Only'.

19. Completed Events with Feedback Summary For completed events, show total registrations and average feedback rating.

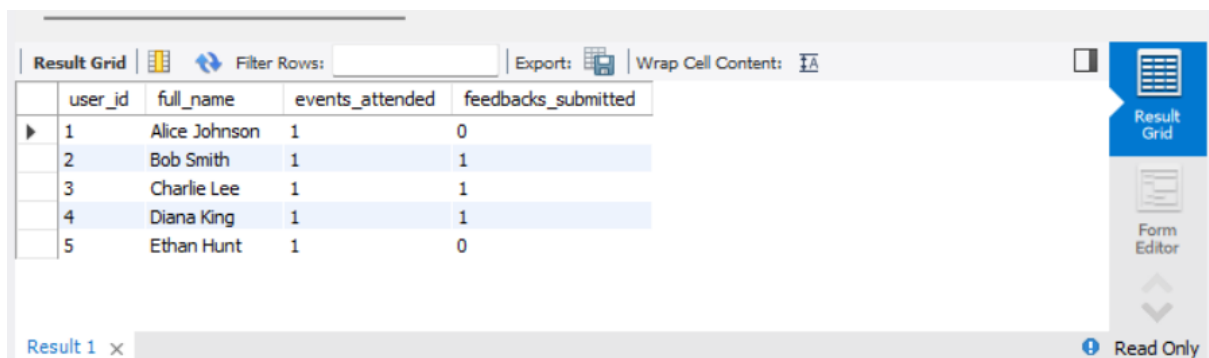

The screenshot shows a data grid interface with a toolbar at the top. The grid displays one row with the following data:

| event_id | title              | total_registrations | average_rating |
|----------|--------------------|---------------------|----------------|
| 2        | AI & ML Conference | 2                   | 4.50           |

On the right side, there are buttons for 'Result Grid' and 'Form Editor'. At the bottom, it says 'Result 1' and 'Read Only'.

20. User Engagement Index For each user, calculate how many events they attended and how many feedbacks they submitted.

The screenshot shows a data grid interface with a toolbar at the top. The grid displays five rows of user data:

| user_id | full_name     | events_attended | feedbacks_submitted |
|---------|---------------|-----------------|---------------------|
| 1       | Alice Johnson | 1               | 0                   |
| 2       | Bob Smith     | 1               | 1                   |
| 3       | Charlie Lee   | 1               | 1                   |
| 4       | Diana King    | 1               | 1                   |
| 5       | Ethan Hunt    | 1               | 0                   |

On the right side, there are buttons for 'Result Grid' and 'Form Editor'. At the bottom, it says 'Result 1' and 'Read Only'.

21. Top Feedback Providers List top 5 users who have submitted the most feedback entries.

| Result Grid  |             |                 |                    |
|--------------|-------------|-----------------|--------------------|
| Filter Rows: |             | Export:         | Wrap Cell Content: |
| user_id      | full_name   | total_feedbacks |                    |
| 2            | Bob Smith   | 1               |                    |
| 3            | Charlie Lee | 1               |                    |
| 4            | Diana King  | 1               |                    |

Result 1 x Read Only

22. Duplicate Registrations Check Detect if a user has been registered more than once for the same event.

| Result Grid   |                        |                    |                    |
|---------------|------------------------|--------------------|--------------------|
| Filter Rows:  |                        | Export:            | Wrap Cell Content: |
| full_name     | event_name             | registration_count |                    |
| Alice Johnson | Tech Innovators Meetup | 2                  |                    |

Result 4 x Read Only

23. Registration Trends Show a month-wise registration count trend over the past 12 months.

| Result Grid        |                     |         |                    |
|--------------------|---------------------|---------|--------------------|
| Filter Rows:       |                     | Export: | Wrap Cell Content: |
| registration_month | total_registrations |         |                    |
| 2025-04            | 2                   |         |                    |
